Changing Your Kid's Future

# DYNAMICS SCHOOL

In the world of education, it is sometimes difficult to find a school that suits your child, where he/she is happy and where programs are designed specifically for the individual student.

## EARLY INTERVENTION PROGRAM (EIP)

For young children aged 2-6 years old

## SCHOOL READINESS PROGRAM

For children aged 5-7 years old who are not yet ready for school and need an intensive program for 1-2 years to prepare them for the school

## THE DYNAMICS SOLUTION

For children aged 6-9 years old who find it too challenging to cope in a mainstream school, yet a Special School does not provide enough stimulation

\*IEP - Individual Education Plan
